Amazon Hall of Fame Reviewer Grady Harp said, Having read and absorbed the very important book BLESS THE BEES by Kenneth Eade, this version that delivers the same message is meant for children and is a very fine introduction to biology for young minds: teach them from the start to honor bees and their mission for our flourishing. From the author and photographer of the number one bestseller on the disappearance of the bees comes a beautifully illustrated childrens book. Since it is their world we have prepared them to inherit, and their future from the seeds we are sowing now (and the damage we are doing) they have a vested interest in the well being of our environment. Insects are a subject that have always fascinated children, and these insects are very important ones. It is crucial that they know...
